

## People are Talking about Patient Comfort System MRI Pads...

*"I went to sleep during my MRI. It was completely different from my previous 3 scans without the new pads."*

~ Patient, Edison NJ

*"Lying on the Patient Comfort System pads was like sleeping on my Tempur-Pedic bed at home. It made my MRI scan very comfortable."*

~ Patient, Boston MA

*"I recently had an MRI for two herniated discs in my spine that were causing me severe back pain. With the new MRI table pads and especially the knee wedge, I was so comfortable that I did not have any inclination to move during the 30 minute scan."*

~ Patient, Southern IN

*"I got to use the new Patient Comfort pads for my MRI and they were great. I was very relaxed and the whole experience was so comfortable."*

~ Patient, Baptist Hospital Memphis TN

*"I have experienced the Tempur-Pedic® TEMPUR® material and have been impressed by the technology. These are clearly the pads I want the imaging center that scans my patients to use."*

~ Richard Nolan, M.D.

Orthopedic Surgeon, San Francisco Bay area
